Providing a greener tableware solution for our customers is a key aspect of our philosophy, we pride ourselves on helping our customers create a more sustainable future.

THE GREENER TABLEWARE SOLUTION

Harfield polycarbonate tableware is:

Made in Europe

No long lead times & less transport pollution

Reusable

Save money on disposables

100% Recyclable

Help save the environment

Say NO to single use plastics and YES to Harfield reusable & 100% recyclable tableware solutions.

Welcome to our On the Go Dining Brochure.

Current Covid related restrictions have forced all catering companies to change their way of serving customers. Delivery and takeaway are now the preferred option for many consumers. Harfield's range of high quality, reusable and recyclable products are ideal for "on the go" dining.

Our range of bowls, plates, covers, lids and cups offer you a variety of options to meet these needs. We have also recently introduced HACCP labels into our portfolio. Within this new line of labels are ones that can be used to assure diners that the contents of takeaway items have not been tampered with or eaten on route from restaurant to customer. We also have Allergen labels to meet the new labelling requirements. Also have a look at our range of insulated boxes that will keep your food hot or cold for up to three hours, helping ensure the food arrives just as it had left the restaurant or takeaway.

All our products are available from most leading catering equipment distributors, or you can order direct from us via email, phone or online at www.harfieldtableware.co.uk
