We at Harfield understand that colour matters for dementia care. Whether your dementia strategy specifies the most commonly cited blue, red or yellow colours, we also have vibrant shades of purple and orange available in solid and translucent colours.

We have enclosed in this brochure tried and tested products used in the healthcare sector for dementia care. These include our 2-handled beaker, wide rimmed plates with high sides, our assisted living plate with anti-slip base and 500ml jug with wider handle to aid grip.
