HARFIELD
QUALITY TABLEWARE SINCE 1961

QUALITY TABLEWARE SINCE 1961

2021 sees Harfield celebrate our 60th anniversary. We have come a long way in these 60 years. From our first factory in Manchester, to our purpose-built facility in Stockport, we are now selling Harfield tableware to every corner of the world. We are still a family-owned independent business with the highest quality of service and products at the core of our business.

Index	132

As the trusted tableware supplier to education, early years, healthcare, Horeca, and justice sectors, our comprehensive range of products meets many varied needs from these demanding sectors where safety, functionality, style, value and performance are paramount. We are associate members of HCA, LACA and ASSIST and work closely with these organisations and their members.

Innovation is at the very heart of everything we do. We are always working with our customers to bring to market products that meet their needs. The current trend for on-the-go dining has led to us introducing a new range of bowls, lids, cloches, compartment boxes and transport boxes to meet this need.

Some of these products have come from our EPIQ partners. EPIQ is the leading alliance of European manufacturers of quality plastic tableware. We are all committed to exceeding expectations, delivering the finest products and manufacturing in Europe. Brexit has made this partnership crucial to supporting customers and partners and we are delighted that this relationship continues to go from strength to strength.

The environmental impact of plastic is at the centre of many of our customers' decision making. Harfield have always supplied reusable and recyclable products that have been welcomed by our customers as tried and tested replacement options for disposable products. The environmental impact of disposables and finding alternative solutions to this problem has focussed our planning for new products. Our coffee cup, dessert pot, and compartment boxes are new products that are helping to save the planet and save our customers money.

All the products listed in this catalogue are polycarbonate unless otherwise stated. Polycarbonate is a robust material that will not stain, shatter, or splinter and is virtually unbreakable. It is also dishwasher safe and the perfect choice for today's demanding environments. Please see our care and maintenance information at the back of this catalogue. The most current version can be downloaded from the download section on our website.

Most products are available in many different colours. Due to the different properties of plastics, colours may not be exactly the same and a slight variation in shade can be expected. Products can also be manufactured in different colours to those shown subject to minimum order quantities. Please contact us for further information.

We welcome the opportunity to work with you on finding innovative solutions to your needs, whether it is from our existing range, from one of our EPIQ partners or a completely new product. We want to hear from you!

Our friendly and helpful customers service team will be delighted to help you. Please contact us on 0161 477 5678 between 9am and 4pm Monday to Friday. You can email us at info@harfieldtableware.co.uk or visit our website for the very latest information and some special offers www.harfieldtableware.co.uk.

The greener tableware solution

Providing a greener tableware solution for our customers is a key aspect of our philosophy, we pride ourselves on helping our customers create a more sustainable future. Keep a look out in this brochure for replacement solutions to single use plastics.

Made in Europe

No long lead times & less transport pollution.

Reusable

Save money on disposables.

100% recyclable

Help save the environment.

Make it personal

Personalise your Trays, S-Planks, Tableware & Barware with our personalisation service. For more information see pages 90-105 for Trays and pages 82-86 for S-Planks.

For more details and pricing please contact us at info@harfieldtableware.co.uk or 0161 477 5678.

Plates & Covers

Plates & Covers

Harfield plates will provide many years of exemplary service in many settings. You will be sure to find a product suited to your needs from our wide selection.

All options are hard wearing, durable, microwave and dishwasher safe.

All products are polycarbonate unless otherwise stated.

Beakers & Cups

Beakers & Cups

Our very first product, the 001 Cup is still proving popular, nearly 60 years after it was first launched. It delights both the young and the old with its versatility. The range has increased considerably since, with our ever popular 009 Beaker with Handle being the highlight of this comprehensive selection of cups and beakers. Recent additions have been feeding cups for the elderly and our world first antibacterial, recyclable, reusable coffee cup – perfect for hot drinks on-the-go.

All products are polycarbonate unless otherwise stated.

O2T & Hi Heat

O2T & Hi Heat

Oven to Tableware was another world first innovation from Harfield, using revolutionary plastics to meet the temperature requirements of our customers and reduce cooking time by up to 10%. The O2T range can go from -40°C to + 220°C – direct from freezer to oven and is microwave safe. It is naturally non-stick and can be used with metal utensils. Please note this range is not unbreakable and the lids are not anti-spill.

New for 2021, we have now introduced a new range of hi heat plastics that are suitable up to 140°C. This range will continue to evolve over the next 12-18 months, so please check our website or contact us for the very latest product information.

Antibacterial Range

Antibacterial Range

Harfield's Biomaster protected tableware range is a response to a growing need to do more to tackle disease-causing bacteria and viruses. Protected products help to inhibit the growth of bacteria by up to 99.99% and also SARS-COV-2, the virus that causes Covid-19.

We are able to produce any Harfield products with the antimicrobial additive. Please contact us for more details. Please note this only applies to Harfield products and not those from our EPIQ partners.

All products are polycarbonate unless otherwise stated.

Biomaster protected

Harfield's Biomaster protected tableware is a response to the growing need to do more to tackle disease-causing bacteria and viruses. We can now confirm that Biomaster is active on substrates against SARS-COV-2, the virus that causes Covid-19.

1

Biomaster binds to the cell wall disrupting growth.

2

The Biomaster ions interfere with enzyme production stopping the cell producing energy.

3

Biomaster interrupts the cell's DNA preventing replication.

For illustrative purposes only, actual resuction rate varies depending on material and Biomaster addition rate.

Buffet & Display

Buffet & Display

Wood, slate, marble and concrete are the current trend in serving and displaying food. These materials are notoriously difficult to maintain and keep clean. S-Planks offer all the style of service without the drawbacks. The S-Plank is dishwasher safe and can be personalised with your logo, brand or message to add real impact to your service.

We also have an ever widening range of display items that are guaranteed to impress.

All products are polycarbonate unless otherwise stated.

Personalise your S-Plank

Want a S-Plank with your own logo or design? Do you have a unique idea for your own S-Plank? Anything is possible with Harfield. Contact us to make your idea or concept become a reality on +44 (0)161 477 5678.

1

Send your logo, design or image.

2

You will receive a digital example to sign off the design.

3

You can order a sample (optional). A small charge will apply.

4

Recieve your personalised S-Planks in approximately 6-8 weeks.

Requirements:

Logo or Design

Illustrator
Vectorial eps
PDF

Image or Design

TIFF, JPG or PNG
Include your fonts
300 DPI (dots per inch)

Due to the nature of the printing process, it may not always be possible to produce a perfect colour match. Again, due to the above process we will always quote a delivered quantity of +/- 10%. So, for example if you order 100 S-Planks you may receive 100, 90 or 110 and you will be invoiced for the amount produced. By placing your order, you accept these terms. Please note that the personalisation service above applies to Rolltex trays. For personalisation of Harfield products, please call us for more details on +44 (0)161 477 5678.

Trays

Trays

Enhance your customer's experience and serve them using the finest quality trays.

Choose from a variety of materials and styles to best suit your needs. Plastic trays for an economical solution, Puro and Wave for style and touch, Laminated for design and shape and Polyester for robust and hardwearing. Harfield's meal trays are the industry standard for quality, value and purpose and are now joined by sectional trays from our EPIQ partners. Please note that a + after the code denotes anti-slip.

Personalisation and anti-slip options are also available on some trays.

Personalise your trays

Want a tray with your own logo or design? Do you have a unique idea for your own tray? Anything is possible with one of Harfield's trays. Contact us to make your idea or concept become a reality on +44 (0)161 477 5678.

1

Send your logo, design or image.

2

You will receive a digital example to sign off the design.

Image or Design

TIFF, JPG or PNG
Include your fonts
300 DPI (dots per inch)

Due to the nature of the printing process, it may not always be possible to produce a perfect colour match. Again, due to the above process we will always quote a delivered quantity of +/- 10%. So, for example if you order 100 trays you may receive 100, 90 or 110 and you will be invoiced for the amount produced. By placing your order, you accept these terms. Please note that the personalisation service above applies to Rolltex trays. For personalisation of Harfield products, please call us for more details on +44 (0)161 477 5678.

Anti-Slip

An anti-slip layer can be added to most Laminated, Earth and some Polyester trays. Even your personalised trays can have an anti-slip layer. For the very best appearance we recommend dark tray colours when choosing an anti-slip option for a Laminated or Earth tray.

Meal Trays

Polycarbonate and polypropylene compartment trays. Our sectional meal trays are robust for the most demanding of environments. Trays made from polycarbonate are virtually unbreakable, dishwasher safe and stackable. These trays make service quick and easy in fast paced settings to allow more customers to be served. Our bright colours are always popular. Polypropylene sectional trays are also robust and designed for education and healthcare. These trays are dishwasher safe. Food can be eaten directly from all our meal trays.

All of the listed Polyester Trays can be ordered in all of the colour swatches even if they are not stock lines. Please note that anti-slip is only available in grey and black for polyester trays. Please contact us for further information.

On-The-Go

On-The-Go

Responding to the changing needs of our customers, we introduced this comprehensive range of on-the-go dining products. All products are reusable and recyclable and will help replace single use plastics and disposables.

The range shown here is complemented by our plates and covers / cloches and the bowls and lids that you can find in earlier sections.

We also have a range of insulated transport boxes for bulk meals or for individual diners. We can supply a greater range of sizes of boxes and accessories. Please call for more information.

All products are polycarbonate unless otherwise stated.

Labels

Food labelling is vital in today's foodservice environment.

Our EPIQ partners LabelFresh are the market leaders in high quality labelling systems that meet ever changing needs. The pandemic has created growing demand for tamper evident labels for food delivery services and also for identifying products that need to be cleaned or are clean.

We can also help design and produce bespoke labels for your service. Please contact us for more information.

Labels

Barware

Barware

The growing need for safe, reusable, recyclable, and robust plastic barware is met with our comprehensive range of polycarbonate and copolyester glasses and tumblers.

The TAO range is the heavyweight premium solution for establishments wanting that extra level of exclusivity and quality. Smart is the budget range of virtually unbreakable polycarbonate for every day use, whilst Privilege adds to the Smart range with an inner stacking ring. The Top range is our mid-range offer of long drink, hi ball, whisky, shot, wine and champagne polycarbonate glasses. Finally the Bar range is the multipurpose stackers, American style tumblers, cocktail and wine polycarbonate glasses to add a touch of style to help you safely serve your drinks.

All capacities are measured to the brim. All products are polycarbonate unless otherwise stated.

Care & Maintenance

Roltex Trays & S-Planks

Cleaning Instructions

Laminated Melamine, Earth Tray and Anti-slip Trays:
For the best hygiene results, we recommend that you always wash new trays before their initial use.

S-Planks and Polyester Trays:
As a matter of hygiene and safety, please always wash any new polyester trays and S-Planks three times before first use. Washing-up is one of the occasions when trays and S-Planks can be damaged. Even in water, the surfaces can become scratched if rubbed against each other with force. It is best to avoid putting too many trays in the water at once. It is perfectly safe to wash your trays in an automatic dishwasher. As soon as the water has drained away, there should be an immediate rinse cycle to flush away deposits of detergent which will form a film if allowed to dry.

Tea and coffee stains can be removed with bicarbonate of soda, and silverware cleaner will remove pencil marks caused by minute deposits of metal from cutlery. Abrasives and harsh scourers should never be used.

Storing

All Laminated Melamine, Earth and Anti-slip Trays should always be completely dry before stacking.

All trays and S-Planks are subject to abrasion from repeated handling and stacking, We recommend that you stack no more than one hundred items together, one on top of another. The storage surface should be perfectly flat to avoid warping of your trays.

To avoid scratching your trays, they should not be slid out from the bottom of a stack - always lift them out from the top.

Harfield Polycarbonate Tableware

Harfield polycarbonate products will give outstanding service providing the following points are observed:

- Never place the tableware near or on direct heat. For instance, do not put inside or on electric or gas cookers.
- Warming cupboards are usually safe for warming polycarbonate as long as they have no hot spots and do not exceed 85°C. Avoid warming for more than 60 minutes.
- Harfield polycarbonate tableware is microwave safe for reheating, but not for cooking food.
- Do not use bleach or abrasives of any kind i.e. scouring pads, scourers, cleaning powders or liquids etc.

Cleaning Instructions

- Harfield polycarbonate tableware is dishwasher safe and suited to hand washing and sterilising sinks. Sterilising sinks should not exceed 85°C.
- Maximum dishwasher temperatures should be 60°C - 65°C for the wash and 70°C - 85°C for the rinse. Higher temperatures may cause deterioration of the material.
- Some dishwasher detergents/rinse aids may cause stress cracking to polycarbonate tableware.

- For information on specific detergents please contact your detergent supplier or manufacturer.
- Washing in hot soapy water should prevent any build up of discolouration.
- Milton Sterilising Fluid may be used to remove discolouration.
- Please note that our polypropylene trays are not suitable to be washed in the dishwasher.
- After washing, rinse well to remove all detergent residue.

It is essential that your detergent and rinse aids are compatible with polycarbonate and that the correct dosages are used. Using too much or leaving tableware to soak for long periods can shorten the life of the product.

Hand wash detergents

Do not use bactericidal detergents when washing polycarbonate tableware as this may cause deterioration of the material. Always check suitability of the hand wash detergent with the detergent manufacturer.

Antibacterial tableware

Please wash thoroughly before use to ensure full effectiveness of this product.

O2T

O2T is a new Oven to Tableware range made from a high performance plastic suitable for cooking, steaming, serving and freezing. With its excellent resistance to sudden extremes of temperature, O2T is also suited to blast freezing / chilling. Operating temperatures: Min -40°C to Max +220°C.

The Do’s and Don’ts of Heating/Cooking/ Baking With Your O2T

- Oven safe and Microwave safe to maximum +220°C.
- Not suited for use on induction or electric hobs, grills or direct flame of gas ovens as temperatures may exceed the maximum recommended.
- Can be used on heated surfaces as long as 220°C is not exceeded. IMPORTANT Do no overheat when in direct contact with hot surfaces.

Handling

- O2T containers are robust and chip resistant, but are not unbreakable. Avoid dropping O2T containers on their rim, especially when full and removing from the freezer.
- O2T warms up and cools down rapidly, so products may be hand held within minutes of removing from the oven and transferring to service.
- Avoid use of sharp metal knives which may result in surface scratches on your O2T oven to tableware. Use of a non metal utensil is recommended for portioning and serving food.
- O2T Gastronorm Bases, Lids and OvenDishes may be stacked to save space.
- Appropriate food content / date labels can be used without leaving residue.

Cleaning

O2T has a naturally non stick surface and should make cleaning easier with basic care:

- Dishwasher safe: do not exceed maximum temperatures Wash 65°C, Rinse 85°C.
- Hand wash and Sterilising Sink safe to maximum 85°C.
- Do not use scourers, abrasive or caustic agents or sharp cleaning implements which may damage the surface.
- O2T has good detergent resistance. The following detergents / rinse aids / sanitisers have been tested for compatibility at dosages recommended by the manufacturer. Always check detergent compatibility a nd correct dosages with your detergent supplier.
 - Suma Alu L10
 - Suma Rinse A5 and Suma Crystal A8
 - Suma Bac D10
 - Suma Linos L6.8
 - Revoflow Detergent P1
 - Suma Shine K2
- Avoid contact with strong acids.
- Some food products with a high sugar content (approx. 10% or more) may require a little extra care when cleaning due to potential surface food deposits. Do not use scourers to remove.

Delivery & Returns

At Harfield we are proud of the unprecedented, high levels of service that we extend to our customers. Our Sales Office is open from 9.00am to 4.00pm Monday to Friday.

Delivery

We aim to deliver on the next business day for all orders placed before 2.00pm. Orders requiring palletised delivery, booking in, to non-UK addresses or out of stock products may take longer. Please speak to our sales office for more information.

Please do not hesitate to contact us for specific delivery requirements.

T: +44 (0) 161 477 5678
E: info@harfieldtableware.co.uk

Returns

Should you need to return any items, we will give you a full refund if we receive the unused goods in a perfect resaleable condition, within 14 days of your purchase. Please speak to our sales team for more information.
