**H**ARFIELD

QUALITY TABLEWARE SINCE 1961

Harfield tableware gives you the ability to reduce your carbon footprint and also save money.

In the current climate of tightening budgets, increasing food costs and a demand to improve food presentation and increased demands for flexibility, it is possible to achieve all these goals by choosing Harfield.

Harfield tableware will save you money. It offers the highest value for money in terms of quality, and longevity. Our products have been designed to exceed the demands of today's caterer. Our range offers the widest practicality, ensuring that you can purchase fewer items and yet still serve your food the way you would like. The majority of our products are made from virtually unbreakable polycarbonate, thus ensuring many, many years of use. You will save money today and tomorrow. Your budget will stretch further with Harfield. All of this is backed by Harfield's product guarantee.

Hand in hand with value for money and quality, comes sustainability. Harfield tableware is 100% recyclable, and this is backed up with our free recycling service. Unlike melamine, traditional crockery plates, single use disposables, and "compostable" plastics, Harfield tableware is recyclable. Your purchase of Harfield tableware comes with peace of mind, every time.

Harfield tableware is also made in the UK. Unfortunately, there aren't any UK made raw materials, but we source all raw materials from Europe. Harfield products support the UK economy and the environment. Save 1000s of tonnes of CO2 from transport by buying products made in the UK rather than from the Far East.

**Harfield tableware is the sustainable choice.**

# SUSTAINABILITY

This is why Harfield is your first choice when you are looking for a sustainable solution for your tableware:

Choosing the reusable choice for your tableware will save you money.

Your tableware will not end up in landfill or polluting the oceans, helping you to save the environment.

Shorter lead times and less transport miles helping you lower your carbon footprint.

Reducing waste and what packaging you have to dispose of. All our packaging is recyclable.

Only order what you need, mix and match colours and save on storage space and expense.

Value for money, know that the tableware you are buying is made to last.

We take your suggestions on board when designing new products, so let us know if there is a product you need to help you care for our environment.

Harfield will recycle your used Harfield polycarbonate and copolyester tableware free of charge.

# SAVE MONEY, SAVE THE ENVIRONMENT

WITH OUR REUSABLE TABLEWARE SOLUTIONS

## OUR COMMITMENT TO ENVIRONMENTAL SUSTAINABILITY

Sustainability is of vital importance to everyone at Harfield and indeed society as a whole. Harfield's range of polycarbonate and copolyester tableware is the most environmentally friendly product on the marketplace for the following reasons:

### Reusable

Replace your disposables with our reusable tableware.

### 100% recyclable

Unlike traditional crockery, melamine or other commonly used plastics, Harfield tableware is 100% recyclable.

### Made in the UK

Lower transport miles of any comparable product.

### Minimal packaging

We only use the packaging we need to protect the product in transit.

### Buy what you need

No need to over-purchase to meet manufacturers' case sizes.

### Virtually unbreakable

Our products are long lasting if used correctly and will not chip or break.

### Innovation

New products are continually being introduced to replace commonly used single use products.

### Recycling service

Harfield free recycling service for all products sold by Harfield.

## DID YOU KNOW...

We could save you **£1000's** every year if you switch to Harfield reusable tableware.

### For example...

2000 tumblers at **£35.99** per box = **£0.02** per tumbler.

Based on a usage of 500 tumblers per day, the cost would be **£10.00** daily.

**£10.00 x 365 days = £3,650** spend per year.

1 Harfield reusable 200ml tumbler is **£1.02** per tumbler.

**£1.02 x 500 tumblers = £510** spend per year.

**That's a huge saving of £3,150 every year.**

Please note all prices exclude VAT & delivery. Prices as found online on 28.06.22.

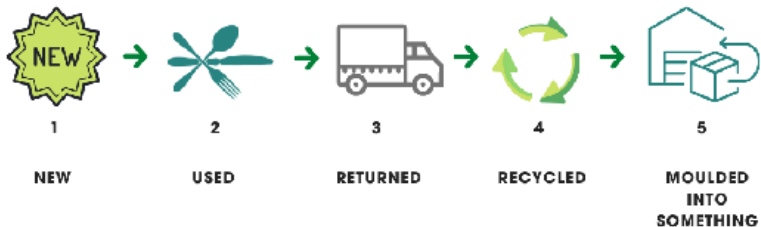

**Made with Sustainability in Mind**

# Harfield's Recycling Service

Sustainability is vitally important for us and so we are very pleased to announce that we are now launching a free recycling service for our customers.

The recycling service is available to all customers who have purchased Harfield, Roltex, AMC or Malko products from Harfield direct or via one of our distributors.

- \* **Email us at [info@harfieldtableware.co.uk](mailto:info@harfieldtableware.co.uk) to request a recycling form.**
- \* **Complete and return your form to [info@harfieldtableware.co.uk](mailto:info@harfieldtableware.co.uk).**
- \* **Box and package the items to be recycled ready for collection.**  
Our courier is not able to tape the boxes, they need to be packed and ready to collect.
- \* **We will arrange for your HARFIELD, Roltex, AMC & Malko products to be collected.** Minimum of 100 items per collection.
- \* **Once collected we will sort, weigh and store the items that are to be recycled.** Should any items returned to us not have the HARFIELD, Roltex, AMC & Malko name then we will have to issue you with a charge of £25.00 (excluding VAT).
- \* **We will arrange for the items to be recycled.**
- \* **The recycled material will then be moulded into new non-food contact products.**
- \* **You will receive a certificate for recycling with us.**

## We can accept:

We can only accept products for recycling that are 100% recyclable and have the following names usually on the bottom side of the product.

HARFIELD

Roltex

AMC

MALKO

We can recycle Polycarbonate, Copolyester, Polypropylene and HARFIELD and Roltex Trays.

## We cannot accept:

Products like melamine and crockery **cannot** be recycled, therefore anything with the markings melamine or Kristallon on them, we are unable to accept.

There will be a charge of £25 (excluding VAT) for disposal of any products that do not have the names HARFIELD, Roltex, AMC or Malko on them.

# The Harfield Product Lifecycle

1

The material starts off as pellets in a range of different colours.

2

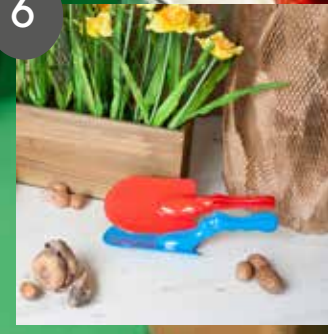

The material is put through the injection moulding process, here in the UK. The product is then produced, packaged and sent to our warehouse in Stockport, UK.

5

Harfield tableware is sorted, ground down, ready to be reused. The recycled tableware is then remoulded into non food contact products.

6

Examples include mobile phone cases, motor bike helmet visors & trowels.

3

Our virtually unbreakable products are used in many sectors including healthcare & education.

4

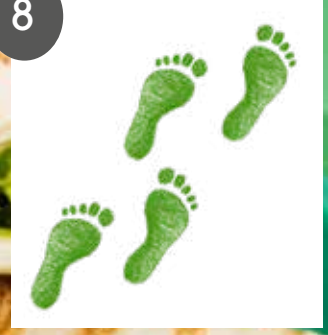

Once the product is ready to be replaced we will arrange for it to be collected ready for recycling.

7

Customers who recycle with us will receive a certificate.

8

Harfield tableware helps save the environment & reduce your carbon footprint.
