

Blackpool Council

Catering Services

Blackpool Council were looking for durable and easy to clean plates with a quality look and adult feel to improve the dining experience for older school pupils.

Derek Wright, the Catering Services Manager at Blackpool Catering Services, got in touch with us as he was looking for a plate with a heavyweight design to give a more adult-feel making meal times more in line with what pupils will experience outside of school.

Derek commented “The raised edge helps keep meals tidy, especially with dishes that include sauces or sides. while still being easy to handle. It also elevates the presentation of food, giving it a more sophisticated look that enhances the overall dining experience.”
